President : David Peacock

Workforce : 1,600+

Hytrol Headquarters : 660,000 square feet

Fort Smith Facility : 300,000 square feet

Technology Center : 45,000 square feet

OUR HISTORY

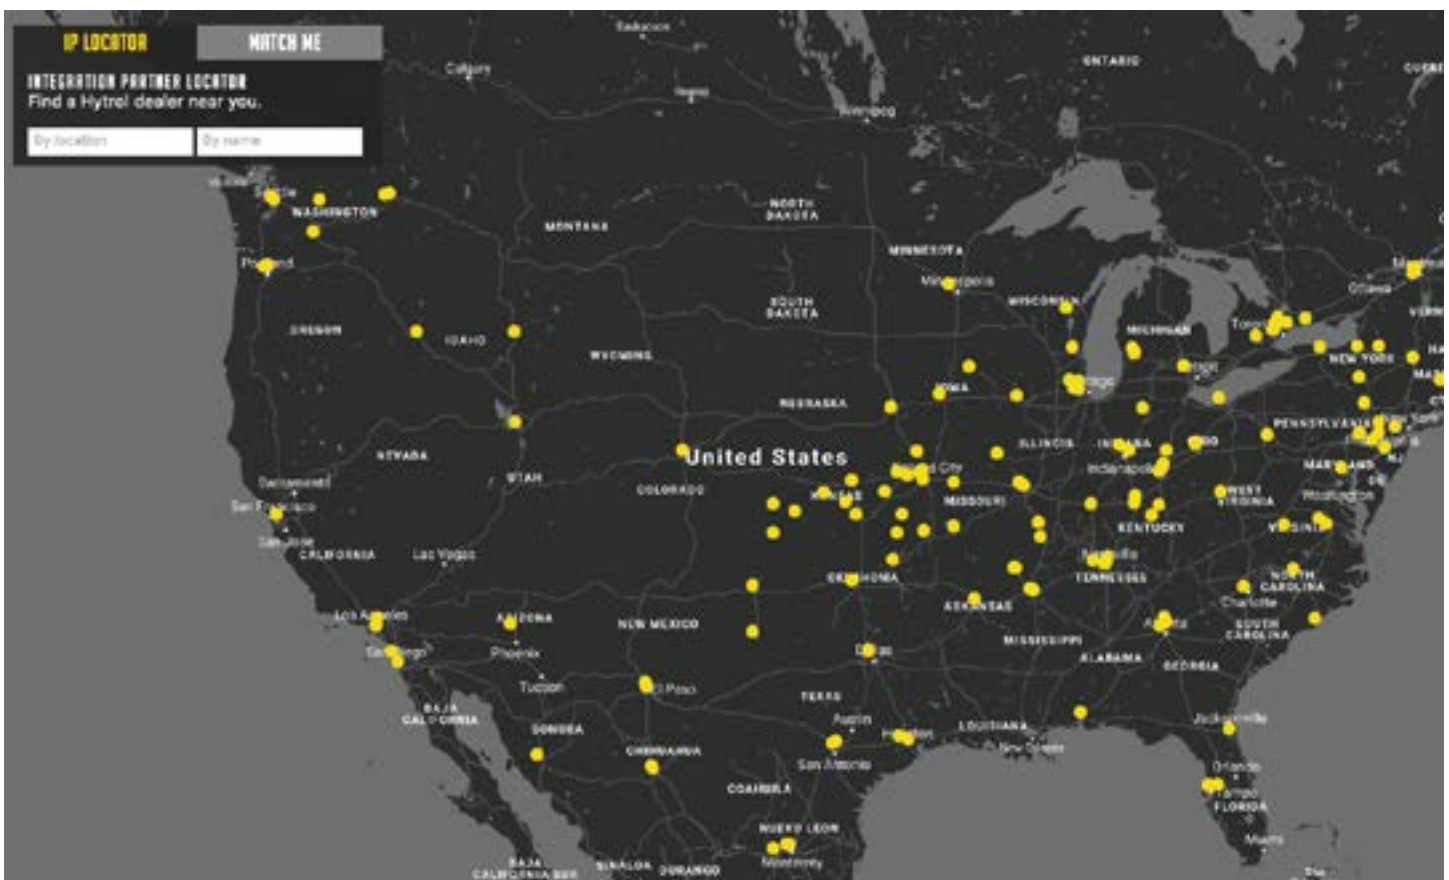

Hytrol was founded by Tom Loberg in 1947. We are a privately owned company, as we've been since the beginning, and are proud to offer that stability to our employees, our partners, our customers, and our community. We moved to Jonesboro, Arkansas in 1962 and have been manufacturing conveyors here ever since. In 2016 we increased our facility to its current 660,000 square feet, and we followed it up with a renovation to our Technology Center in 2018. What was once a company of 28 employees has since grown to over 1300. In 2021, we announced a second facility, in Fort Smith, Arkansas.

HOW WE WORK & WHAT WE MAKE

We at Hytrol sell our material handling solutions through our integration partner network. This network includes more than 150 independent businesses worldwide who can assist with material handling projects of all shapes and sizes.

Our products transport, accumulate, and sort products ranging from small bags to large pallets. We also provide software for conveyors and warehouse management.

OUR PRESS

OUR LATEST NEWS

PRESS RELEASES

Hytrol is dedicated to sharing our company news with our consumers and media. We pride ourselves in responding to the informational needs of the media and our customers. If you have a request or want to share exciting news with us please email rgarrett@hytrol.com.

Throughout our many years of working within the material handling industry we have developed deep relationships with our customers and have provided them with the equipment they need to achieve their goals.

CASE STUDIES

We like to highlight some of our favorite projects in case studies known as our “Relationship Focus” videos. Think your center should be considered for a case study?

Email us at pphillips@hytrol.com.

OUR MISSION, VISION, & VALUES

OUR MISSION

We create material handling technology and relationships that move the world.

OUR VISION

To connect future generations of people, products, and solutions by pushing the limits of what is possible in material handling.

OUR VALUES

FAITH: Believe in a higher purpose, in ourselves, and in others.

FAMILY: Care for people at work and at home.

EMPATHY: Walk a mile in someone else's shoes.

COMMITMENT: Do what we say with excellence and take a long-term view.

GRATITUDE: Be thankful for who we are and what we have.

COMMUNITY: Celebrate today and invest locally for a better tomorrow.
